

ALSTAL Building Group

Professionally and with the Success

www.alstal.eu

GENERAL CONTRACTOR

General contractor of "Maltese thermal baths" is consortium of 3 companies. Leader of the consortium is Alstal. We are a private company, which was founded in 1976. At present, Alstal Building Group, is a leading company in Kujawsko-Pomorskie Voivodeship. We offer general execution of industrial and public use investments, construction work, engineering repair work, as well as production and installation of large-size steel construction.

We are distinguished by the comprehensiveness of the service, which we can provide. In contracting each task, Alstal Building Group, conforms to the individual needs of each investment project. We specialized in a complex service – from designing, technological consulting, construction to project commissioning and obtaining all permissions.

All products, manufacturing process and execution process are contract in a modern way. Given tasks are executed in short terms, and are reliable, solid and at reasonable prices.

Alstal Building Group offers:

- General execution of industrial investments (public use facilities, didactic buildings, swimming pools, sports halls and gyms, sports arenas).
- Production and installation of large-size steel constructions (halls, towers, chimneys, technological constructions, storage tanks, containers, and flyovers).
- Executing engineering and construction works (sewerage systems, water supply systems, sewage treatment plants, waste dumping grounds, and water-conditioning stations).
